

Golden Threads

Our Golden Threads of **Articulation**, **Connection**, **Empathy** and **Impact** run through all opportunities we provide to strengthen concepts and make links, both between subjects and what is learnt in and out of the classroom. These enable our curriculum to meet the children's current needs and ensure they are secondary school ready when they leave us in Y6.

Articulation	Connection	Empathy	Impact
Children can explain and discuss a concept with confidence, using appropriate terminology and accurate technical vocabulary. They have the confidence to voice their own thoughts and opinions, whilst listening to the views of others.	Children can use and link new knowledge, skills and vocabulary to deepen their understanding of existing concepts. They can relate and connect these to past and future learning, as well as their own personal experiences.	Children are able to understand the effect actions and events have on the lives of individuals and communities, both now and in the past. They are increasingly able to relate their own experiences with those of others within a range of ever-widening situations.	They can describe and recognise the inevitability of change. They appreciate the legacy that events, actions and choices, including their own, have on future cultures and lives. They have the skills and attitudes to manage change within their own lives and the belief that they can make a difference.
